To: Darin Christensen <crmreadymix@yahoo.com>

Hi Darin,

Here's the seed mix we recommend for Sanpete County. If George Faux want something different, that's fine, but it would be good to let us know. Keep your seed tags from the seed you buy for your records (an ours, if we ask for them). Seeding is more likely to be successful on freshly-roughened soil.

Thanks.

Peter

Subject: seed mix to use for the David Burton property revegetation (S/039/0033)

To: Mark Baum <rmedirtpirate@gmail.com>

Cc: Paul Baker <paulbaker@utah.gov>

Hi Mark,

As just discussed on the phone, we are willing to broadcast seed the site once it has been graded. However, we would need you to purchase the seed.

Attached is the seed mix recommended by the Division for the David Burton property revegetation (S/039/0033), consistent with David's request for a dryland mix. Let me know if you have any questions.

Here's a list of potential seed sources: <http://forestry.usu.edu/htm/rural-forests/forest-management/forest-timber-management/utah-seed-suppliers/>
